

Veterinarians Who Treat Rabbits and other exotic* animals

(* Small animals other than dogs and cats are called “exotic” animals by vets.)

IMPORTANT NOTE: This list is not an endorsement of any particular veterinarian or hospital, and we have not had first-hand experience with many of these vets. You may also find other exotic vets by calling around. It is very important that the vet you select has lots of experience treating the species of animal that you have (e.g., rabbit, guinea pig, ferret, iguana, bird, etc.) Please find an experienced vet now (and check their hours), BEFORE an emergency! **See last two pages of this list for 24-hour emergency facilities.** Always call ahead for emergencies, so the staff can be ready for you (and you can make sure there is an exotic vet available).
